

DIVINE DESIGNS GROUP

Designers of Rooms with Built-Ins

Specializing in Kitchens

Why hire us?

While there are many Cabinet companies building cabinets, and contractors that do excellent work remodeling kitchens, they usually lack the design experience and creativity that separates your new kitchen from that of the “Jones”. DDG’s objective is to give you the best design for your money. Since we are not affiliated with any retail company or contractor, you have the freedom to shop and purchase from any fabricator.

We start with an in-home consultation. During that consultation, we work with you to understand your needs, wants and goals. We want to consider how your family lives day to day, how much you entertain and how you use your kitchen. DDG will provide a design that is both functional and beautiful. We will help you achieve a kitchen that will flow and look cohesive with the rest of your home.

Affordable services

Having a comprehensive plan before you start can save you time and money. It will help you to “get it right” the first time.

DDG can help you with the “whole project” or just the items you need help on, such as;

Space planning
Cabinetry drawings
Colors and materials

Tile layouts
Lighting design
Appliances

Plumbing fixtures
Ceilings
Price shopping

We normally work on an hourly basis although project rates are available upon request.

DDG Makes you Look, Sound and Feel Divine!
